

With clipso, you're making the right choice!

clipso is the only brand of stretch ceilings and walls that manufactures extra wide coverings, measuring up to 5 m in width. Every stage of production is strictly controlled in the plant, right through to delivery. This means that you are guaranteed to get products of exceptional quality, together with efficient services.

clipso translucent

Restaurant ceiling: 507 PT

clipso 507 PT is a translucent covering, and with back lighting it diffuses 50% of the light.

Combined with a printed image, it creates a cheerful, soft lighting ambiance.

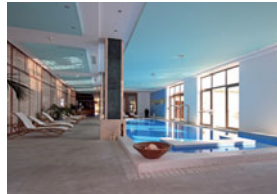

Lighting with changing colours fosters a sense of wellbeing in your interior, perfect for places of relaxation, recreation, spas, etc.

Shop ceiling: 507 PT

clipso water-repellent & dirt-repellent

NEW FEATURES

Swimming pool ceiling: 705 NOSWEAT

705 NOSWEAT and 705 NOSTAIN are the latest products in the clipso range.

clipso 705 NOSWEAT is water repellent, ideal for installation in damp areas: bathrooms, pools, spas, etc. It keeps walls and ceilings clean and dry for a long time.

Kitchen wall: 705 NOSTAIN

As for clipso 705 NOSTAIN, it is dirt-repellent. Stains come off easily. It is ideal for use in kitchens, factories, childcare centres etc.

clipso

PVC-free ecological coverings decorate and renovate your walls and ceilings

Compatible with ALUMINIUM, ABS, PVC profiles...

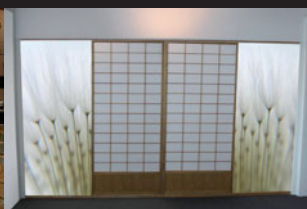

clipso: a "no limit" concept

clipso meets the requirements of your creativeness. To take interior decoration and design to the outer limits, clipso coverings and profiles can also be used for fitting out stands, lightboxes, suspended signs, sliding doors and partitions. Let your imagination run wild!

clipso's truly revolutionary coverings enhance walls and ceilings!

For new buildings and renovations, clipso offers a full range of innovative coverings and profiles for stretch walls and ceilings. Both decorative and functional, clipso coverings are available in classic, design, acoustic, translucent, antibacterial, dirt-repellent and water-repellent. With a solution for your every need, clipso meets all your expectations!

clipso classic

Before, Living room ceiling

For new buildings and renovations, clipso 705 S coverings enhance ceilings and walls of residential and public places. The highly aesthetic finish with no joints or seams is flawless.

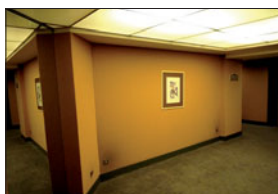

After, Living room ceiling: 705 S

Available in widths up to 5 m, in many finishes: matte, metallic, flocked, etc.

Lighting systems: spotlights, fixtures, optical fibres, etc. can be integrated.

clipso design

Before, Hotel corridor wall

Thanks to the latest "oversize" digital printing techniques, ceilings and walls are perfect surfaces for decorating. They can be used to create illusions and as communication and decoration media.

After, Hotel corridor wall: 507 P

clipso 507 P offers an unlimited number of visuals. Discover our photo gallery on our website, and feel free to check with us to have your own photos printed.

clipso acoustic

Meeting room ceiling: 495 D

Living and working in a good acoustic environment is a priceless comfort!

clipso 495 D covering features 250,000 micro-perforations per sq. metre. Combined with an acoustic absorber, it attenuates sound nuisances.

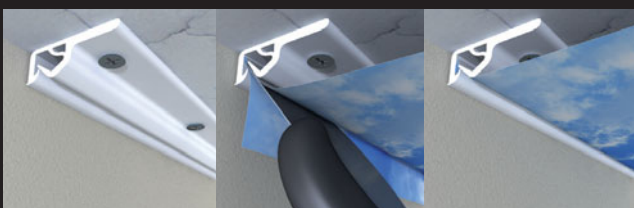

Museum ceiling: 495 D

clipso is compatible with all types of acoustic absorbers, such as glass wool, rock wool, etc.

clipso: a cutting-edge technique

clipso coverings are made of polyester mesh, coated with polyurethane. Thanks to a system of high-tech profiles, clipso coverings dress walls and ceilings and contour the most complex and varied shapes. They adapt to every architectural style, whether modern or classic.

clipso: an ideal solution

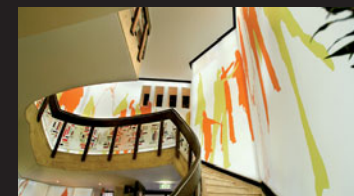

- Extra-wide coverings, up to 5 m wide, with no PVC
- Compatible with ALUMINIUM, ABS, PVC profiles...
- Cold installation: fast, easy and clean
- CE standard certificate
